Full job description

Your new company

Founded 20 years ago, this civil and mining contractor is currently experiencing a period of ongoing growth and they are subsequently looking to recruit a results driven Project Engineer.

Your new role

Reporting to the Project Manager, you will have responsibility for ensuring the client experience is first class. You will be seen as a constant on site from overseeing contractors, ensuring quality. You will provide technical and detailed advice to the project team, along with all levels of stake holders. Overseeing the coordination of site, including materials and labour are available. Also as part of your role you will be responsible for forecasting and reporting, whilst ensuring OHS policies and procedures are adhered to.

What you'll need to succeed

- Degree qualifications in Civil Engineering (preferred)
- Experience in a similar role
- Have a sound knowledge of the relevant standards and specifications
- Previous project planning and team management experience
- Excellent written and verbal communication skills, with the ability to lead and motivate
- A high level of organisational skills and attention to detail
- The ability to work under pressure and meet deadlines

What you'll get in return
